

**REMARKS**

By this amendment, claims 1, 9, 10, and 11, the specification, and the drawings are amended to place this application in immediate condition for allowance. Currently, claims 1-4 and 6-14 are before the Examiner for consideration on their merits.

First, a new Figure 7 is submitted herewith in accordance with the Examiner's request for a perspective view of the three substrates. The brief description of the drawings and the specification are revised appropriately.

Second, the claims are revised in accordance with the Examiner's suggestion. It should be noted that claim 10 was revised to replace "an" with "are" in line 2 thereof. The specification is also amended to address the informalities noted in the Quayle Action.

It is submitted that each and every issue raised in the Quayle Action has been resolved so that this application is now in condition for allowance.

Accordingly, the Examiner is requested to examine this application and pass all pending claims onto issuance.

If the Examiner believes that an interview would be helpful in expediting the allowance of this application, the Examiner is requested to telephone the undersigned at 202-835-1753.

Again, reconsideration and allowance of this application is respectfully requested.

The above constitutes a complete response to all issues raised in the Office Action dated September 9, 2008.

Applicants respectfully submit that there is no fee required for this submission, however, please charge any fee deficiency or credit any overpayment to Deposit Account No. 50-1088.

Respectfully submitted,  
CLARK & BRODY
